

EDUCATION

SAVANNAH COLLEGE OF ART AND DESIGN
SAVANNAH, GA
INDUSTRIAL DESIGN
2024 - 2028

RELEVANT COURSEWORK:

- **Club Car x SCADpro:** In collaboration with Club Car, SCAD students designed innovative lighting and sound applications that enhanced the versatility and appeal of personal transportation. Provided students with real-world experiences in designing for manufacturing constraints while prioritizing user needs and brand values.
- **SCAD “Myth in Motion” Motorcycle Project:** Designed and digitally rendered the motorcycle of the future in Photoshop, visualized with Vizcom.
- **Design II:** Explored material properties, fabrication methods, and design constraints to develop innovative solutions.

TAMALPAIS HIGH SCHOOL
MILL VALLEY, CA
2020-2024

RELEVANT COURSEWORK:

Auto Shop Class

- Hands on experience- automotive maintenance, repair

Documentary Film Program (Limited acceptance)

- Collaborated in teams of four, produced community-focused documentaries
- Captured local, current stories through interviews
- “Where I’m From” solo short film nominated for Student Emmy

SUMMER COURSES

ArtCenter College of Design, College for Creative Studies
Transportation Design virtual classes

WORK EXPERIENCE

MIKE’S BIKES

Sales Advisor

2021 - 2024

- Worked with customers to understand their needs and advise them on their bicycle, apparel and accessory purchases
- Facilitated sales at the register and followed up with customers
- Furthered people skills, ability to build rapport with customers

SKILLS

3D MODELING

- Rhino, Keyshot, Adobe Photoshop (Adobe Certified Professional), Premiere Pro, Microsoft Word, Excel, Vizcom

PROTOTYPING

Sculptural Pen

- Direct modeled sculptural pen in Rhino; created Keyshot animation and edited final ad in Premiere.

Chair Design (Cardboard Engineering)

- Engineered a full-scale load-bearing cardboard chair (no adhesives or fasteners) using iterative prototyping and material testing.

Vehicle 3D Modelling

- Surface modeled personal car in Rhino and 3D printed a prototype, studied surface continuity to improve surface accuracy.

Poul Henningsen-Inspired Lamp

- Iteratively sketched, laser-cut and assembled a cardboard lamp using layered diffusers to create soft, ambient lighting.

Apple Water Pitcher Concept

- Sketched, iterated, and sculpted pink-foam prototypes exploring Apple-inspired form language.

MECHANICAL HANDS-ON

- Rebuilt personal vehicle’s engine in driveway applying classroom knowledge from autoshop program
- Major work completed included head gasket, water pump, front main seal

WORKSHOPS ATTENDED

SAVANNAH COLLEGE OF ART AND DESIGN

Alessandro Camoralli

Founder of CAMAL Design, Ferrari, Pininfarina and Bertone

- Automotive design masterclass (including introduction to 3D modelling with Autodesk Alias)

Andres Gonzales

Cofounder of Rhino 3D and Grasshopper

- Introduction to 3D modelling using Grasshopper

Daimler Trucks

- Truck sketching and design workflows

Utkarsh Seth

Head of UX Research, Google

- Problem solving processes within large corporations, how to steward an idea through many phases of approval
